DETAILED ACTION

This Application has been examined. The claims 1, 5-13, 17-32 are allowed.

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: The present invention is directed to a portable viewing and computing apparatus comprising: a bus; a memory unit coupled to the bus for storing data and instructions; a processor coupled to the bus for processing the data and instructions; a display device coupled to the bus and comprising a viewing panel viewable from a front side and a back side; and a display controller coupled to the bus and for sensing orientation and rotation of the display device. The combination of the prior art of Higginbotham et al. (US 5,896,575) and Lebby et al. (US 5,534,888) show a similar invention, however, they fail to teach the sensing orientation and rotation of the display device, and in response thereto for controlling the display device to display a given portion of information on a given side facing a user, and response to each of a plurality of rotations in a first direction displaying a corresponding next portion of the information on the given side facing of the user as claims 1, 13; or sensing each of a plurality of rotations of the display device, from one of the first and second sides to the other of the first and second sides, in a first directions; and displaying a corresponding next portion of the data on a corresponding one of the first and a second sides facing a user, in response to each of the plurality of rotations in the first direction as claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
